## License Management

Mathcad licenses are served using the PTC License Server. The PTC License Server is now run with [FLEXnet Publisher 10.8.5](#). This latest release is supported and certified with the same platforms and minimum requirements as [Pro/ENGINEER Wildfire 5.0](#). Additionally, support for Windows 2003 server has been added for the FLEXnet application only.

Licenses generated for previous versions of Mathcad cannot be used to run Mathcad 15. However, if you have a server currently running an older version of FLEXnet (also known as FLEXlm) managing licenses for older versions of Mathcad, you can install [FLEXnet 10.8.5](#) side-by-side on that system to manage Mathcad 15 licenses as well.

ODBC Driver Support <sup>a</sup>	
Vendor	Driver
Microsoft	Microsoft Access (*.mdb)
	SQL Server
	Microsoft ODBC for Oracle
Oracle	Oracle in OraHome92
<b>NOTES</b>	
<sup>a</sup> Mathcad 15.0 supports 32-bit drivers only, even on 64-bit operating systems.
